### SUMMARY

Engineering student at the University of Technology of Troyes (UTT), specializing in mathematics, science, and digital technologies.

Passionate about innovation, video games, and entrepreneurship, I aim to combine creativity, technology, and strategy to bring ambitious projects to life.

Founder of Penguin Studio, a video game studio specialized in creating immersive and interactive experiences in the metaverse, already reaching over 10,000 unique players each month.

External Vice President of Junior Conseil UTT, responsible for developing partnerships, leading business development efforts, and representing the Junior Enterprise within the professional and institutional ecosystem.
